

JIYA ASHOKKUMAR WADHWANI

jiyawadhwani3019@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

BCCA student with hands-on experience in Python, MySQL, Excel, and Power BI. Interested in Data Science and Data Analytics, with practical experience in data analysis, programming, database querying, dashboard development, and data visualisation. Currently strengthening technical skills through Data Science training and practical projects.

EDUCATION

Bachelor of Commerce in Computer Application (BCCA)

N.M.D. College of Arts and Commerce

Rashtrasant Tukdoji Maharaj Nagpur University

SKILLS

Programming: Python, Python Data Structures, Functions, File Handling

Data Analysis: Data Cleaning, Data Analysis, Data Visualisation

Database: MySQL, SQL, Joins, Aggregation, GROUP BY, HAVING

Tools: Microsoft Excel, Power BI, Power Query, Jupyter Notebook

Professional Skills: Communication, Teamwork, Adaptability, Leadership, Time Management

WORK EXPERIENCE

Data Science Trainee

SkillEcted

January 2026 – Present

- Currently undergoing practical training in Data Science with hands-on work in Python, MySQL, Excel, and Power BI.
- Developed practical projects involving data analysis, programming, databases, dashboards, and business-oriented problem solving.
- Applied data cleaning, SQL querying, data visualisation, and analytical techniques to real-world style datasets and problems.

PROJECTS

Decision Making With Regret Analysis – Python | GitHub

April 2026

- Developed a Python-based decision analysis tool using Jupyter Notebook to compare alternatives and evaluate regret.
- Implemented rule-based decision logic to compare expected and actual outcomes and generate insights for better decision-making.

Retail Store Analytics System – MySQL | GitHub

July 2026

- Designed and managed a retail sales database using MySQL for sales, customer, and business analysis.
- Wrote 150+ SQL queries covering filtering, aggregation, GROUP BY, HAVING, functions, and business reporting.
- Generated sales and customer analytics reports to derive useful business insights.

Olist Marketplace Performance Dashboard – Power BI | GitHub

August 2026

- Developed an interactive Power BI dashboard analysing Olist marketplace performance, logistics, customer behaviour, and sales trends.
- Analysed Brazilian e-commerce data to identify key business insights across sales, customer activity, and order performance.
- Created interactive visualisations and business-focused dashboards to communicate marketplace performance effectively.

TRAINING & CERTIFICATIONS

- Currently undergoing training in Data Science with Artificial Intelligence and Machine Learning at SkillEcted.
- Tata Group Data Visualisation: Empowering Business with Effective Insights – Forage
– [Certificate Link](#)

EXTRACURRICULAR ACTIVITIES

- Co-led the planning and coordination of school and college farewell events.
- Anchored a college seminar on Career Guidance in Web Development and AI.
- Participated in the University-level Tug of War Competition.
